The Nursery

Egg Day Nursery is situated in a former Methodist Chapel on Stockbridge Road in the **conservation** area of the **village** of Sutton Scotney.

The children's playrooms are spread over two floors, including a **dedicated** under 2s unit on the first floor.

Security for the children is paramount, and we have installed a **security system** on the entrance to the nursery grounds

We have an **internal CCTV** system in each of the playrooms and sleep room. This system is not linked up to web cameras, but purely used to monitor the nursery environment.

About Us

We are a married couple with two young **children**, Charlie & George.

Briony is a **qualified primary teacher** bringing her experience and education degree to the management of the nursery. Anthony has a **business background** and is responsible for the financial management.. **Kelly**, the nursery's manager has extensive experience as a nursery practitioner and manager.

In close partnership with **Ofsted** and the **Hampshire Early Education & Childcare Unit**, we have established a nursery offering **comprehensive care and facilities** to all parents in the local area.

Outdoors

The outside space has been designed to respect the **rural** setting the nursery is located in. The four distinct areas have been created using **natural, sustainable** materials and are resourced to provide an external learning environment for the children to **explore** and **enjoy** every day, all year round.

There is a **specially** designed area for the very young children, a **road** created using safety surfacing for bikes, trikes & scooters and two grassed areas containing a **willow cave**, growing beds for **plants** and **vegetables**, a gravel dig pit and a **mini beast/wildlife** discovery corner.

Food

We have a qualified, highly experienced chef to prepare home-cooked, nutritious food. We can cater for all dietary requirements. The following meals are available every day:

Breakfast

Lunch

Tea

A healthy snack is offered mid-morning and afternoon and water is available all day.

We also provide a **Food to Go!** service where food can be ordered in advance for you to take away and give to your child at home.
