

Egg Day Nursery

General Information

Aims and Objectives

The aim of Egg Day Nursery is to help children become successful learners, confident individuals, responsible citizens and effective contributors to society. Children will learn through their play with a balance of free choice and adult led experiences. The curriculum will be responsive to the needs and abilities of each and every child, and will be provided for them in a safe, caring environment, in partnership with their parents and their community.

The Nursery believes that this quality can be achieved by working together in partnership with parents, carers and OFSTED, with our childcare and Nursery education firmly based on the following principles:

- Every child is a unique individual
- All children have skills and abilities that need to be brought out and built upon
- The starting point of children's education is what they can do, not what they cannot do
- Children have the right to develop physically, socially, emotionally, morally and intellectually to their full potential
- All children learn through first hand experiences, using their five senses
- Learning is holistic for young children

The Nursery recognises and values the community that it serves and if parents have any queries, comments or suggestions about its operation they are encouraged to inform the Nursery Manager.

Parents are always very welcome to spend time in the Nursery and the Nursery staff will always be happy and willing to discuss a child's progress, development or any concerns a parent may have.

We hope that the time parents and their children spend at Egg Day Nursery will be a happy and positive experience for all.
